IRON AND STEEL ENGINEER INDEX FOR 1965

Herewith is presented the index of all authors and papers published in the IRON AND STEEL ENGINEER for the year 1965

LIST OF AUTHORS

A

ADAMS, J. I. and G. H. SCHAEFFER, JR.—"Five-Ton Vacuum Induction Melting Furnace," January, Page 105.
AGARWAL, DR. J. C.—"Use and Operation of Pilot Plants," November, Page 134.
ARNOLD, L. and R. J. BAGDONAS—"Scheduling of a Blast Furnace Reline," August, Page 161.
AXELGARD, A. T. and E. D. LARSON—"Modification of the Central Powerhouse at the Geneva Works," May, Page 87.

B

BAGDONAS, R. J. and L. ARNOLD—"Scheduling of a Blast Furnace Reline," August, Page 161.
BAILEY, C. A.—"The Four-Square-Gear Oil Tester," June, Page 150.
BAILEY, DAVID R. and JOHN W. ONUSCHECK—"Pittsburgh Steel's Basic Oxygen Furnace Operation," May, Page 95.
BAILEY, RALPH E.—"Basic Oxygen Furnace Progress," July, Page 81.
BAKER, CHARLES and HERBERT W. WARD—"The Planetary Mill's Role in the Steel Industry," November, Page 117.
BARANYI, JOSEPH F.—"Results of Design Changes in Sinter Plant Fans," December, Page 85.
BARRETT, DONALD F., J. E. PEEBLES and A. R. FOREMAN—"Strip Processing Lines," September, Page 179.
BLACK, J. T., JR.—"The Connors Steel Div. Continuous Casting Operation," October, Page 109.
BOENING, E. F. and R. P. SHAH—"Static Edge Position Control," June, Page 139.
BONSTEIN, H. L., JR.—"Supervisory Control Used for Remote Operation of Substations," August, Page 120.
BRACHT, NORMAN A. and AMOS A. BRADD—"Factors Affecting Backup Roll Life," March, Page 81.
BRADD, AMOS A. and NORMAN A. BRACHT—"Factors Affecting Backup Roll Life," March, Page 81.
BRANDT, DR. A. D.—"The Air Pollution Control Program in Pennsylvania Under the Air Pollution Control Act," January, Page 119.
BRIDGES, A. W.—"Drive Systems for Continuous Casting Facilities," May, Page 70.
BROWER, A. S. and R. MEREDITH—"Automatic Crop Shear for Strip Mills—Applications and Operating Results," March, Page 124.
BROWNING, W. G. and C. L. HAINES—"Mechanical Features and Operation of a 10,000-Lb Three-Compression Scrap Baler," July, Page 61.
BRUNNER, O. G.—"Drives and Automation Systems for Wide 5-Stand Cold Mills," November, Page 75.

C

CAMINO, N. A.—"Adjustable Voltage Crane Control for the Steel Industry," November, Page 152.
CAMPBELL, D. KELLY—"Pellets from Taconite," October, Page 106.
CHAKKO, DR. M. K. and DR. K. N. TONG—"Evaluation of Resistance to Spalling of Roll Materials," October, Page 141.
CHAMBERLIN, R. S. and P. R. JOHNSON—"Thermal Considerations in Basic Oxygen Furnace Design," June, Page 111.
CHAPMAN, ROBERT G., JR., FREDERIC G. JOHNSON and JAMES H. STOLTZ—"Electrical Features of Combination Temper-Reduction Mills," October, Page 125.
CICHELLI, A. E.—"Plant Lubrication—An Engineering Approach," September, Page 95.
CLARK, W. C. and R. S. ROTE—"Electro-Slag Welding—Procedures and Results," September, Page 107.
COFFEY, G. M.—"Versatile Brake Systems for Electric Remote Control," July, Page 102.
COLLINS, R. J.—"Steel Mill Hydraulics," April, Page 164.
CONE, CARROLL—"Conveyor-Type Slab Reheating Furnaces—A Progress Report," October, Page 99.
COVER, M. L. and W. G. RITTLER—"Improvements Contributing to Increased Boiler Efficiency at Fairless Works," July, Page 119.
COX, HOWARD N.—"New Features in Tandem Cold Strip Mills," January, Page 97.
CULVER, J. W. and J. A. B. PINNEY—"Equipment and Practice Modification for Improved Plate Mill Performance," October, Page 117.

D

DANEU, ING. E., ROSS NEBOLSINE and ALBERT S. TOTH—"Solution of the Water Problem at Taranto Steel Plant," April, Page 95.
DEAN, A. F. and E. W. SIEGER—"No. 1 Blast Furnace Reline," February, Page 105.
DeCOSTER, JEAN and J. A. FINNEY, JR.—"A Cloth Filter Gas Cleaning System for Oxygen Converters," March, Page 133.
DEERING, JOSEPH M.—"New Concepts for Automatic Strip Guiding for the Metals Industry," November, Page 109.
DIETZ, DR. J. R. and E. J. OSTROWSKI—"Use of Coal as Injected Blast Furnace Fuel at Weirton Steel Co. Div., National Steel Corp.," December, Page 116.
DONALDSON, JOHN W., FRED W. RYS and RUFUS EASTON—"New Concepts in Continuous Billet Casting," April, Page 77.
DORMAN, CLIFFORD W. and GEORGE P. MAURER—"Development of the Modern BOF Drive," August, Page 109.
DOWNIE, H. F.—"Galvanized Sheet Facilities Expansion at U. S. Steel's Pittsburg, Calif., Works," August, Page 131.
DRAKE, H. J.—"Rolling Oils—Their Influence on Productivity and Quality," December, Page 110.
DUGAN, JOHN M.—"Development of Roll Specifications for a Modern Rod Mill," February, Page 125.
DURST, F. L.—"Draft Compensation in Hot Rolling," April, Page 165.

E

EASTON, RUFUS, JOHN W. DONALDSON and FRED W. RYS—"New Concepts in Continuous Billet Casting," April, Page 77.

EASTON, RUFUS and S. W. MEYER—"An Investigation of the Design of Tundish Nozzles," September, Page 139.

F

FALK, MARTIN C.—"A Superior Scrap Charger for Oxygen Converters," November, Page 93.
FARMER, FRED W.—"Increased Use of Natural Gas in the Open Hearth," August, Page 91.
FAUST, C. C., P. F. WALKER and G. E. WANICH—"Centralized Maintenance Materials Control," September, Page 149.
FERACI, MICHAEL—"Crucible's Semi-Automatic Hot Finishing Train," March, Page 69.
FINNEY, J. A., JR. and JEAN DeCOSTER—"A Cloth Filter Gas Cleaning System for Oxygen Converters," March, Page 133.
FISHER, J. T., R. W. KIRKLAND, JR. and R. MEREDITH—"Computer Control of Hot Strip Mills at Spencer Works," December, Page 73.
FOREMAN, A. R., DONALD F. BARRETT and J. E. PEEBLES—"Strip Processing Lines," September, Page 179.
FUJIMOTO, ICHIRO—"Study on the Economic Production Scale at Chiba Works," September, Page 195.

G

GABOR, GEORGE—"Great Lakes Hot Strip Mill," September, Page 185.
GARRISON, J. L.—"Cover Anneal Control Takes on a New Look," March, Page 119.
GLASGOW, J. A. and R. E. MINTO—"Production of Very Large Ingots For The Strip Mill," December, Page 105.
GLOVEN, D. O.—"Bottom Pouring at Lukens," November, Page 147.
GOOD, W. R.—"Roller Bearings in the Sendzimir Cold Mill," April, Page 145.
GORDON, GEROME—"Rapid Cooling for Coil Annealing," June, Page 155.
GOTT, E. H.—"The Eloquence of Change," December, Page 143.
GRAY, R., R. A. SOMERVILLE and DR. M. D. STONE—"Theory and Practical Aspects in Crown Control," August, Page 73.
GRIGGS, D. W., JR.—"Cast Nylon Slipper Blocks Outwear Aluminum Bronze on 35-In. Blooming Mill," November, Page 156.
GROVES, W. E.—"Safe Handling of Large Quantities of Gaseous Oxygen in Steel Pipelines," January, Page 88.

H

HAINES, C. L. and W. G. BROWNING—"Mechanical Features and Operation of a 10,000-Lb Three-Compression Scrap Baler," July, Page 61.
HATCHARD, DONALD G.—"Induction Heating of Bars and Semifinished Steel," August, Page 102.
HEDRICK, D. W.—"A 2-Outlet Alloy and Tool Steel Bar Mill," December, Page 97.
HIRASE, MASAKAZU—"Hirohata Works of the Fuji Iron & Steel Co., Ltd.," February, Page 69.
HITCHCOCK, JOHN H. and C. H. IRONBERG—"Controlled, Cooling, Collection and Division of Rod Coils," November, Page 137.
HORNAK, J. N.—"Vacuum Degassing—Why and How?" June, Page 73.
HOWARD, JOHN G.—"Future Availability and Cost of Electric Energy," September, Page 204.

I

INOUE, YOSHISUKE and HIDEO OGOSHI—"Computer System Used as Production Planning Tool at Yawata Works," July, Page 128.
IRONBERG, C. H. and JOHN H. HITCHCOCK—"Controlled Cooling, Collection and Division of Rod Coils," November, Page 137.

J

JOHNSON, ERNEST R.—"Springtime For Steel," June, Page 81.
JOHNSON, FREDERIC G., JAMES H. STOLTZ and ROBERT G. CHAPMAN, JR.—"Electrical Features of Combination Temper-Reduction Mills," October, Page 125.
JOHNSON, P. R. and R. S. CHAMBERLIN—"Thermal Considerations in Basic Oxygen Furnace Design," June, Page 111.
JONES, D. R. and A. W. SMITH, JR.—"Combination Slab and Plate Mill Rolls under Computer Control," May, Page 134.
JONES, E. HALL—"Shipping—Past, Present, Future," May, Page 75.

K

KIRKLAND, R. W.—"Process Computers—Their Place in the Steel Industry," February, Page 115.
KIRKLAND, R. W., JR., R. MEREDITH and J. T. FISHER—"Computer Control of Hot Strip Mills at Spencer Works," December, Page 73.
KOEHLER, HENRY B.—"The Selection of Silicon Rectifiers for Metal Finishing Applications," July, Page 94.
KRIEBLE, E. L.—"Development of Stainless Clad Seamless Tubing," October, Page 135.
KUHNA, DOUGLAS A.—"Bulk Handling Provides Modern Plant Lubrication," March, Page 141.
KUKA, K. S.—"Electrical Power Requirements for a Continuous Hot Strip Mill," September, Page 157.
KURZINSKI, E. F.—"Temperature Measurement at the Hot Strip Mill," December, Page 91.

L

LABEE, C. J.—"Coke and By-Products in 1964," December, Page 139.
LARSON, E. D. and A. T. AXELGARD—"Modification of the Central Powerhouse at the Geneva Works," May, Page 87.
LASIEWICZ, T. W.—"Automatic Data Handling, Scheduling and Control of the Batch Anneal," September, Page 191.
LAWSON, H. R. and E. K. SCHMIDT—"Combination Job Shop and Merchant Mill," July, Page 109.
LEVY, EDWARD C., JR.—"The Modern Approach to Slag Handling at Basic Oxygen Furnace Plants," September, Page 198.
LYONS, D. E., W. O. WILLIAMS and A. J. SEFCIK—"Development, Design and Operation of a Controlled-Circulation Fume Hood for Basic Oxygen Furnaces," July, Page 87.

Mc

McCAFFREY, T. J.—"Tool Steels for Nontooling Applications," July, Page 124.
McCURDY, FRED H., JR. and CHARLES L. McGRANAHAN—"Recent Advancement in Pickling Technique with a Hydrochloric Acid Compound," September, Page 144.
McGRANAHAN, CHARLES L. and FRED H. McCURDY, JR.—"Recent Advancement in Pickling Technique with a Hydrochloric Acid Compound," September, Page 144.
McLEAN, G. J.—"Control of Defects—Flat Rolled Products," December, Page 131.
McMATH, PAUL L.—"Survey of Digital Control Techniques," February, Page 153.

M

MACCABEE, BEN—"Mill Building Design," August, Page 141.
MacHATTIE, GRAHAM C.—"The Practical Aspects of Planning and Scheduling of Maintenance Work at Algoma," March, Page 103.
MADSEN, I. E.—"Developments in the Iron and Steel Industry During 1964," January, Page D-1.
MALHOTRA, B. B.—"Modern Trends in Steel Mill Electrical Application Problems," March, Page 111.
MAURER, GEORGE P. and CLIFFORD W. DORMAN—"Development of the Modern BOF Drive," August, Page 109.
MAYO, C. J.—"Design Considerations for a Heavy-Duty Aluminum Crane Conductor System and Operating Results," May, Page 113.
MELLOY, G. F.—"Development of an Improved Forged Hardened-Steel Roll Composition," May, Page 117.
MEREDITH, R. and A. S. BROWER—"Automatic Crop Shear for Strip Mills—Applications and Operating Results," March, Page 124.
MEREDITH, R., J. T. FISHER and R. W. KIRKLAND, JR.—"Computer Control of Hot Strip Mills at Spencer Works," December, Page 73.
MEYER, S. W. and RUFUS EASTON—"An Investigation of the Design of Tundish Nozzles," September, Page 139.
MICHALSKI, WILLIAM J., J. L. ROBBINS and EDWARD J. SCHAMING—"Recent Developments in Hydraulic Descaling," June, Page 167.
MINTO, R. E. and J. A. GLASGOW—"Production of Very Large Ingots For The Strip Mill," December, Page 105.
MOBLEY, L. S. and E. PERKINS—"Hydrochloric Acid Pickling and Acid Regeneration," April, Page 156.
MULFLUR, W. H.—"Algoma's 106-In. Wide Hot Strip Mill," January, Page 73.

N

NEBOLSINE, ROSS, ALBERT S. TOTH and ING. E. DANEU—"Solution of the Water Problem at Taranto Steel Plant," April, Page 95.
NEUZIL, NORMAN V.—"Substitution of Natural Gas for Pulverized Coal in Blast Furnace Boilers," April, Page 123.

O

OGOSHI, HIDEO and YOSHISUKE INOUE—"Computer System Used as Production Planning Tool at Yawata Works," July, Page 128.
OHTA, TAKAYOSHI—"Stainless Steel Quality by the Continuous Casting Process," September, Page 169.
ONUSCHECK, JOHN W. and DAVID R. BAILEY—"Pittsburgh Steel's Basic Oxygen Furnace Operation," May, Page 95.
ORAM, JAMES E.—"Summary of Recent Automation Developments in the Iron and Steelmaking Processes," April, Page 139.
OSTROWSKI, E. J. and DR. J. R. DIETZ—"Use of Coal as Injected Blast Furnace Fuel at Weirton Steel Co. Div., National Steel Corp," December, Page 116.

P

PALUMBO, PETER and J. G. PRICE—"Evaluation of New Design Thin Coke-Oven Heating Walls For Productivity Improvement," December, Page 121.
PATTERSON, N. C.—"Steel Mill Preventive Maintenance Plan," September, Page 176.
PEEBLES, J. E., A. R. FOREMAN and DONALD F. BARRETT—"Strip Processing Lines," September, Page 179.
PEIRCE, JOHN W. and PAUL H. von LOESECKE—"Making Basic Oxygen Furnace Analog Signals Compatible to Digital Computer Accuracy," August, Page 97.
PERKINS, E. and L. S. MOBLEY—"Hydrochloric Acid Pickling and Acid Regeneration," April, Page 156.
PERRY, T. E.—"Ladle Degassing with Induction Stirring and High Vacuum," October, Page 89.
PINNEY, J. A. B. and J. W. CULVER—"Equipment and Practice Modification for Improved Plate Mill Performance," October, Page 117.
POOLE, D. E.—"Republic's Continuous Reclamation Hydraulic Acid Pickling at Gadsden, Ala.," April, Page 160.
PRICE, J. G. and PETER PALUMBO—"Evaluation of New Design Thin Coke-Oven Heating Walls For Productivity Improvement," December, Page 121.

R

RAO, B. SREENIVASA—"Linear Programming Maximizes Ingot Steel Production," April, Page 172.
REED, RICHARD J.—"Increasing Reheat Furnace Capacity by Engineered Heat Placement," July, Page 72.
REISHUS, HARALD T., JR.—"Material Handling with Travel Lifts," March, Page 90.

RYS, FRED W., RUFUS EASTON and JOHN W. DONALDSON—"New Concepts in Continuous Billet Casting," April, Page 77.

S

SCHAEFFER, G. H., JR. and J. I. ADAMS—"Five-Ton Vacuum Induction Melting Furnace," January, Page 105.
SCHAMING, EDWARD J., WILLIAM J. MICHALSKI and J. L. ROBBINS—"Recent Developments in Hydraulic Descaling," June, Page 167.
SCHMIDT, E. K. and H. R. LAWSON—"Combination Job Shop and Merchant Mill," July, Page 109.
SCHOENHERR, KARL—"Fundamentals of Mechanical End Face Seals," November, Page 123.
SCHREIBEIS, LEE—"Comfort Heating of Large Mill Buildings with Gas-Fired Radiant Heaters," February, Page 137.
SCHULTZ, DR. R. G. and A. W. SMITH, JR.—"Determination of a Mathematical Model for Rolling Mill Control," May, Page 127.
SEFCIK, A. J., D. E. LYONS and W. O. WILLIAMS—"Development, Design and Operation of a Controlled-Circulation Fume Hood for Basic Oxygen Furnaces," July, Page 87.
SHAH, R. P. and E. F. BOENING—"Static Edge Position Control," June, Page 139.
SIEGER, E. W. and A. F. DEAN—"No. 1 Blast Furnace Reline," February, Page 105.
SMITH, A. W., JR. and D. R. JONES—"Combination Slab and Plate Mill Rolls under Computer Control," May, Page 134.
SMITH, A. W., JR. and DR. R. G. SCHULTZ—"Determination of a Mathematical Model for Rolling Mill Control," May, Page 127.
SOMERVILLE, R. A., DR. M. D. STONE and R. GRAY—"Theory and Practical Aspects in Crown Control," August, Page 73.
SPEER, EDGAR B.—"The Problems of Competition," August, Page 172.
SPIELBERGER, E.—"New Approach to the Production of Protective Atmospheres in an Integrated Steel Plant," December, Page 125.
STAPLETON, JAMES M.—"The Future of the Blast Furnace," September, Page 133.
STAPLEY, BERNARD E.—"Automatic Inspection of Metal Strip for Visible Defects," November, Page 99.
STOLTZ, JAMES H., ROBERT G. CHAPMAN, JR. and FREDRIC G. JOHNSON—"Electrical Features of Combination Temper-Reduction Mills," October, Page 125.
STONE, J. K.—"Oxygen Steelmaking Expanding Rapidly," November, Page 87.
STONE, DR. M. D., R. GRAY and R. A. SOMERVILLE—"Theory and Practical Aspects in Crown Control," August, Page 73.

T

TAYLOR, C. H.—"Modernization of 60-In. Universal Plate Mill," September, Page 113.
TeSELLE, HENRY L. and CARL J. WEISS—"Flux Addition Control in Oxygen Steelmaking," May, Page 101.
THANOS, PAUL—"No. 4 A-C Station—Inland's Way to Economical Steam and Power," June, Page 129.
TOMASCH, H. C.—"Application of Crush Grinding to No. 1 Rod Mill, Cuyahoga Works, United States Steel Corp.," June, Page 162.
TONG, DR. K. N. and DR. M. K. CHAKKO—"Evaluation of Resistance to Spalling of Roll Materials," October, Page 141.
TOTH, ALBERT S., ING. E. DANEU and ROSS NEBOLSINE—"Solution of the Water Problem at Taranto Steel Plant," April, Page 95.
TURNER, GORDON C.—"The Design and Application of Bridles for Process Lines," February, Page 145.

U

ULLMANN, JOACHIM—"Variable-Speed Reversing Drive for Rolling Mills Features Static Control," June, Page 109.

V

VALENCHON, P. and E. MENU—"Attachment of Shell to Trunnion Ring in Loose Trunnion Ring Oxygen Converters," October, Page 95.
VANDERPLOEG, ELMER J.—"Cold Roll Forming of Building Shapes," January, Page 83.
VONADA, E. E.—"Evaluating Runout Table Drives," April, Page 93.
von LOESECKE, PAUL H. and JOHN W. PEIRCE—"Making Basic Oxygen Furnace Analog Signals Compatible to Digital Computer Accuracy," August, Page 97.

W

WALKER, P. F., G. E. WANICH and C. C. FAUST—"Centralized Maintenance Materials Control," September, Page 149.
WALLACE, JOHN W.—"Fundamentals of Strip Mill Automatic Gage Control Systems," September 1964, Page 193.
WANICH, G. E., C. C. FAUST and P. F. WALKER—"Centralized Maintenance Materials Control," September, Page 149.
WARD, HERBERT W. and CHARLES BAKER—"The Planetary Mill's Role in the Steel Industry," November, Page 117.
WATTERS, JOHN—"Air Cushion Handling Devices for Horizontal Movement of Material," April, Page 153.
WEILER, GEORGE and RIEDEL, WALTER—"Basic Oxygen Furnaces and Kaldo Highlights in Europe," May 1964, Page 81.
WEISS, CARL J. and HENRY L. TeSELLE—"Flux Addition Control in Oxygen Steelmaking," May, Page 101.
WILLIAMS, W. O., A. J. SEFCIK and D. E. LYONS—"Development, Design and Operation of a Controlled-Circulation Fume Hood for Basic Oxygen Furnaces," July, Page 87.
WILSON, LEE—"Automation with the Twin Regenerative Annealing Furnace," August, Page 154.
WINKLER, HOWARD A.—"A New Approach to Continuous Bar Length Measurement," April, Page 131.
WISMER, ROBERT J.—"Retraining Electrical Personnel at Algoma," June, Page 145.
WITT, FRANK A.—"Comparison Between Theoretical and Experimental Cold Rolling Forces," June, Page 121.
WOODRUFF, STEPHEN C.—"Metallurgical Design and Application of Ductile Iron Rolls," April, Page 87.

Y

YAMADA, TATSUO—"Three-Bell Blast Furnace Operation in Japan," June, Page 85.

LIST OF SUBJECTS

A

"Abstracts of Technical Papers to be Presented at Technical Sessions of 1965 AISE Annual Convention," September, Page 121.
"Abstracts of Technical Papers to be Presented at AISE Spring Conference," April, Page 116.
"Abstracts of Technical Papers to be Presented at AISE Western Meeting," June, Page 104.
"Acid Pickling and Acid Regeneration, Hydrochloric"—By E. PERKINS and L. S. MOBLEY, April, Page 156.
"Acid Pickling at Gadsden, Ala., Republic's Continuous Reclamation Hydrochloric"—By D. E. POOLE, April, Page 160.
"Adjustable Voltage Crane Control for the Steel Industry"—By N. A. CAMINO, November Page 152.

"Air Cushion Handling Devices for Horizontal Movement of Material"—By JOHN WATTERS, April, Page 153.
"Air Pollution Control Program in Pennsylvania Under the Air Pollution Control Act"—By DR. A. D. BRANDT, January, Page 119.
"AISE Annual Convention, Program—1965"—September, Page 118.
"AISE Annual Convention, Pictorial Review—1965"—October, Page 138.
"AISE District Chairmen—1964–1965"—April, Page 112.
"AISE District Chairmen 1965–1966"—December, Page 82.
"AISE National Committees, 1965"—January, Page 117.
"AISE Officers and Directors, 1965"—January, Page 114.
"AISE Spring Conference, Pictorial Review—"—May, Page 142.
AISE Spring Conference, Program—"—April, Page 114.
"AISE Western Meeting, Pictorial Review—"—July, Page 134.
"AISE Western Meeting, Program—"—June, Page 102.
"Algoma, Retraining Electrical Personnel at"—By ROBERT J. WISMER, June, Page 145.
"Algoma, The Practical Aspects of Planning and Scheduling of Maintenance Work at"—By GRAHAM C. MacHATTIE, March, Page 103.
"Algoma's 106-In. Wide Hot Strip Mill"—By W. H. MULFLUR, January, Page 73.
"Aluminum Crane Conductor System and Operating Results, Design Considerations for a Heavy-Duty"—By C. J. MAYO, May, Page 113.
"American Iron and Steel Institute Regional Technical Meetings"—December, Page 105.
"Anneal, Automatic Data Handling, Scheduling and Control of the Batch"—By T. W. LASIEWICZ, September, Page 191.
"Anneal Control Takes on a New Look, Cover"—By J. L. GARRISON, March, Page 119.
"Annealing Furnace, Automation with the Twin Regenerative"—By LEE WILSON, August, Page 154.
"Annealing, Rapid Cooling for Coil"—By GEROME GORDON, June, Page 155.
"Application of Crush Grinding to No. 1 Rod Mill, Cuyahoga Works, United States Steel Corp."—By H. C. TOMASCH, June, Page 162.
"Appraising and Planning New Steel Plants—The Engineering Viewpoint"—By SAM RUVKUN, July, Page 136.
"Atmospheres in an Integrated Steel Plant, New Approach to the Production of Protective"—By E. SPIELBERGER, December, Page 125.
"Attachment of Shell to Trunnion Ring in Loose Trunnion Ring Oxygen Converters"—By E. MENU and P. VALENCHON, October, Page 95.
"Automatic Crop Shear for Strip Mills—Applications and Operating Results"—By A. S. BROWER and R. MEREDITH, March, Page 124.
"Automatic Data Handling, Scheduling and Control of the Batch Anneal"—By T. W. LASIEWICZ, September, Page 191.
"Automatic Inspection of Metal Strip for Visible Defects"—By BERNARD E. STAPLEY, November, Page 99.
"Automatic Strip Guiding for the Metals Industry, New Concepts for"—By JOSEPH M. DEERING, November, Page 109.
"Automation Developments in the Iron and Steelmaking Processes, Summary of Recent"—By JAMES E. ORAM, April, Page 139.
"Automation with the Twin Regenerative Annealing Furnace"—By LEE WILSON, August, Page 154.
"Automation Systems for Wide 5-Stand Cold Mills, Drives and"—By O. G. BRUNNER, November, Page 75.
"Award, R. D. Hindson Wins Papers"—October, Page 140.

B

"Backup Roll Life, Factors Affecting"—By NORMAN A. BRACHT and AMOS A. BRADD, March, Page 81.
"Baler, Mechanical Features and Operation of a 10,000-Lb Three-Compression Scrap"—By W. G. BROWNING and C. L. HAINES, July, Page 61.
"Bar Length Measurement, A New Approach to Continuous"—By HOWARD A. WINKLER, April, Page 131.
"Bar Mill, A 2-Outlet Alloy and Tool Steel"—By D. W. HEDRICK, December, Page 97.
"Basic Oxygen Furnace Plants, The Modern Approach to Slag Handling at"—By EDWARD C. LEVY, JR., September, Page 198.
"Basic Oxygen Furnace Progress"—By RALPH E. BAILEY, July, Page 81.
"Bearing, Developments and Characteristics of the Modern Oil-Film"—By SAMUEL S. RICKLEY, March, Page 93.
"Bearings in the Sendzimir Cold Mill, Roller"—By W. R. GOOD, April, Page 145.
"Bethlehem Steel's New 8-In. Mill at Johnstown"—By A. N. REYNOLDS, May, Page 61.
"Blast Furnace Fuel at Weirton Steel Co. Div., National Steel Corp., Use of Coal as Injected"—By E. J. OSTROWSKI and DR. J. R. DIETZ, December, Page 116.
"Blast Furnace Operation in Japan, Three-Bell"—By TATSUO YAMADA, June Page 85.
"Blast Furnace Reline, No. 1"—By E. W. SIEGER and A. F. DEAN, February, Page 105.
"Blast Furnace Reline, Scheduling of a"—By R. J. BAGDONAS and L. ARNOLD, August, Page 161.
"Blast Furnace, The Future of the"—By JAMES M. STAPLETON, September, Page 133.
"Blooming Mill, Cast Nylon Slipper Blocks Outwear Aluminum Bronze on 35-In."—By D. W. GRIGGS, JR., November, Page 156.
"BOF Drive, Development of the Modern"—By GEORGE P. MAURER and CLIFFORD W. DORMAN, August, Page 109.
"Boiler Efficiency at Fairless Works, Improvements Contributing to Increased"—By M. L. COVER and W. G. RITTLER, July, Page 119.
"Boilers, Substitution of Natural Gas for Pulverized Coal in Blast Furnace"—By NORMAN V. NEUZIL, April, Page 123.
"Bottom Pouring at Lukens"—By D. O. GLOVEN, November, Page 147.
"Brake Systems for Electric Remote Control, Versatile"—By G. M. COFFEY July, Page 102.
"Bridles for Process Lines, The Design and Application of"—By GORDON C. TURNER, February, Page 145.
"Building Design, Mill"—By BEN MACCABEE, August, Page 141.
"Buildings with Gas-Fired Radiant Heaters, Comfort Heating of Large Mill"—By LEE SCHREIBEIS, February, Page 137.
"Bulk Handling Provides Modern Plant Lubrication"—By DOUGLAS A. KUHNA, March, Page 141.
"Burns Harbor Plant 160-In. Plate Mill, Electrical Start-Up—"—By J. G. ROBERTS, December, Page 107.

C

*"Cast Nylon Slipper Blocks Outwear Aluminum Bronze on 35-In. Blooming Mill"—By D. W. GRIGGS, JR., November, Page 156.
"Casting Facilities, Drive Systems for Continuous"—By A. W. BRIDGES, May, Page 70.
"Casting, New Concepts in Continuous Billet"—By FRED W. RYS, RUFUS EASTON and JOHN W. DONALDSON, April, Page 77.
"Casting Operation, The Connors Steel Div. Continuous"—By J. T. BLACK, JR., October, Page 109.
"Casting Process, Stainless Steel Quality by the Continuous"—By TAKAYOSHI OHTA, September, Page 169.
